Binance Smart
Chain-Based Coin

Public Exchange Offering of **Advantage Tokens**

For Use on BoomPay Trading Platforms, Products, and Services 21.07.2021

IMPORTANT CONSIDERATIONS

IMPORTANT: This document is confidential and by accepting delivery of this document, you agree to keep confidential all information contained herein. The document is a marketing document and is not intended to be legally binding. Nothing in this document shall be deemed to constitute a prospectus of any sort or a solicitation for investment, nor does it in any way pertain to an offering or a solicitation of an offer to buy any securities in any jurisdiction. The information in this document does not constitute a recommendation by any person to purchase Advantage tokens or any other cryptographic token or currency nor BoomPay has authorized any person to make any such recommendation.

Purchaser Sophistication. Advantage tokens are speculative and involve a high degree of risk and uncertainty. The sale of Advantage tokens is aimed solely at persons who have sufficient knowledge and understanding of blockchain and cryptographic tokens and other digital assets, smart contracts, storage mechanisms (such as digital or token wallets) blockchain-based software systems and blockchain or distributed ledger technology, to be able to evaluate the risks and merits of a purchase of Advantage tokens and are able to bear the risks thereof, including loss of all amounts paid and loss of Advantage tokens purchased. Potential purchasers must further make their own independent assessment, after making such investigations as they consider necessary, of the merits of, and their suitability for, purchasing any Advantage tokens and should consult their accounting, legal and tax representatives and advisers in order to evaluate the economic, legal and tax consequences of purchasing Advantage tokens.

Forward-Looking Statements. Certain statements contained in this document may constitute forward-looking statements or speak to future events or plans. Such forward-looking statements or information involve known and unknown risks and uncertainties, which may cause actual events to differ materially. No reliance should be placed on any such forward-looking statements or information.

Private Presentation. This White Paper is being delivered only to selected persons, and not through any general solicitation or general advertising. You may not, nor are you authorised to deliver or disclose the contents of this document to any other person. No person is authorized to provide any information or to make any representation not contained in this White Paper or in the Token Purchase Agreement. No person or entity other than the Issuer is authorized to sell, resell, or distribute the Advantage tokens on behalf of the Issuer, BoomPay, or any of their affiliates.

Purchasers of Advantage tokens, or any interest therein, from any person or entity other than the Issuer are not entitled to rely upon this White Paper or the Token Purchase Agreement.

Risk Factors. Purchasing the Advantage tokens, just like any other tokens, entails risks and purchasers could lose their entire purchase amount. Please be guided and responsible for your own actions.

THE STORY OF ADVANTAGE TOKEN

The world is undisputedly moving towards a digital ecosystem. Cryptocurrencies are a promising addition to that ecosystem providing unparalleled benefits to both consumers and merchants.

Even non-tech-savvy people have at least heard of terms like Bitcoin or blockchain. While many people may not understand the technicalities behind blockchain, Bitcoin, Ethereum, and Litecoin have already become household names.

Ventures built on the establishment of community inclusion are the untamed wilderness of our future. As we move further away from inflexible money related structures and traditional mindsets, we freely and naturally discover and find other ways to unravel issues and relate to one another. In a world ruled by the commodification of time, community-run projects are more than just an alter of pace. They are a way to hone the radical acknowledgment of others.

When success depends on the shared strength of the people who make up a collective, we are constrained to move our perspectives to align with those around us. BoomPay is our way of recognizing the significance of tearing down this long-established paradigm.

A community is held together by hundreds, if not thousands, of interconnected moments. By studying those drawn to our project, we realized that true strength doesn't come from one of us alone. It comes from when we all work together in chaos and in harmony.

With that thought bright in our minds, we began developing Advantage Token.

DILEMMA

Our world primarily isn't perfect and nothing is. Hence here we are, building an ideal platform both for individuals and businesses and address common issues encountered based on individual or business need.

Poor technical architecture

Many exchanges are “put together quickly”, often choose the simplest approach to get the system up and running. Whilst this may be true, but we assure security, efficiency, speed, and scalability and long term use in mind.

Insecure platform

There are hundreds of exchanges that went down due to being hacked. BoomPay is built to high standards, audited, and penetration tested. We ensure financial systems to the highest security standards and strive to ensure security first.

Poor market liquidity

Professional traders and normal users are significantly affected by this. Having a shallow order book means high slippage when trading, which is very expensive for traders. Getting miners, institutional investors and large traders into a new exchange is a chicken and egg problem, and requires a team with deep industry resources.

Poor customer service

Traders are a different breed when it comes to users. Understanding the trader's mentality is vital for running a successful exchange. Money is literally on-the-line. Many exchanges service traders as if they were running a social media site. A 3-second delay in seeing your friends' status update would hardly be noticed, but on an exchange, the same would be unacceptable, resulting in a torrent of user complaints.

In addition to the technology stack, BoomPay is built with service in mind. We have the best support community alongside trained staff to assist should users encounter issues.

User Friendliness

We target to cater worldwide and we have designed the platform as simple and easy for all users to grasp.

BOOMPAY

BoomPay and Advantage Token was launched by a group of individuals and friends working in the IT industry who share the same advocacy, anonymity. In total, they hold an impressive accumulated 53 years of experience in the industry. The thought behind the concept was to move in on, and fill a gap in the market which allows anonymity of its users.

And rightfully so, by implementing this structure, it would allow users internationally to produce peer-to-peer payments and exchange using its main merchant platform, BoomPay.

ADVANTAGE TOKEN (ADV)

Advantage Token is based on Binance Chain structure which is a fast and secure decentralized digital asset exchange based on the highly performant matching engine built on distributed consensus.

Utilizing Proof of Stake for a cryptocurrency could be a fervently far from being obviously true plan choice. In any case, since it includes an instrument to present secure voting, has more capacity to scale, and licenses are more outlandish motivating force plans, we have chosen to grasp it.

A DeFi liquidity pool is a smart contract that locks tokens to guarantee liquidity for those tokens on a decentralized trade. Clients who give tokens to the smart contract are called liquidity suppliers. DeFi liquidity pools developed as an imaginative and mechanized way of tackling the liquidity challenge on decentralized trades. They supplant the conventional arrange book demonstrated utilized by centralized crypto trades, which was lifted directly from the established financial markets.

The most obvious benefit of liquidity pools is that they ensure a near-continuous supply of liquidity for traders wanting to use decentralized exchanges. They also offer the opportunity to profit from cryptocurrency holdings by becoming a liquidity provider and earning transaction fees.

This whitepaper introduces the initial offering of a new utility token, Advantage Token, for use on BoomPay and other Defi trading platforms such as Pancake Swap. Advantage Token presents a sizeable opportunity for businesses and individuals. It is aimed to provide more open and proficient ways for exchanging reserves, exchange fetched, speed and secure as cash distinction.

Advantage Token is a BEP-20 token launched on the 7th of July, 2021 via Smart Chain thru Pancake Swap.

KEY DETAILS

Token Name: **Advantage Token**

Advantage Token Contract Address: **0xe1B77bd558b4Ad80a6078bEF884bC61A42268477**

Max Supply: **500,000,000**

WHY ADVANTAGE TOKEN?

This ethos of quality over quantity and individual strength extends across several elements of BoomPay. From being a privately-owned company to our development, operational and support infrastructure. It is also an ideal that binds together persons linked to our company, from team members to shareholders, from communities to individual supporters. The owners, together with the growing community, will be here to stay with a very promising and brighter future.

WHY ARE THE OWNERS REMAINING ANONYMOUS?

Basically to protect their privacy.

Private data monitoring and theft is a growing concern in daily life more so in the crypto world. With its decentralized idea being impacted on by other agencies be it government or private. No one wants their private details plastered all over the Internet and be available for all to see and use for nefarious activities.

ROADMAP

Q2 2021

Advantage Token Launch
